What People Who Know Say About

The following letters are from people who have personally inspected our lands in the El Encanto Tract. Geo. W. Brannon was formerly of Stockton, California; J. E. Culver is from Kenwood, California; Victor Holm from Chico, California, and M. N. Putman of Wichita, Kan. Colon, R. P. June 27th, 1915.

Mr. L. R. Draks.

San Francisco, Calif.

Dear Sir.—I am taking time to drop you a few lines to show you how enthused I am over this Country. Especially El Encanto Tract, as I have been on it more than any other property. Not merely because I bought 160 acres of you, but the fact that climate and soll shows me the great opportunities awaiting all energetic farmers. I have seen natives growing products with efforts that would not bring back seed in the United States. I have been here six weeks and haven't seen a plow in any field, and only one horse and it was used to grind sugar cane, on a native ranch, or rather where he had chopped down some bushes as you will see from the enclosed photo I took. The cane was planted about 12 months ago, or rather mashed in the soil by throwing a joint down here and there and stepping on on it with bare feet, and then watch it grow. I have seen the natives coming in from the inland streams bringing various products. Most of these are growing wild and I saw growing on your property absolutely wild three different kinds of rubber, pink, white an black. I have been asked by numerous people by letter questlons and if they enjoy things as I have I am sure you would not have enough land to accommodate all of the homeseckers. I told you I did not expect to stay here this trip. I have changed my mind. Don't know when I will see you again. The climate is unexceiled and to my surprise I never had to use a mosquito net even along the rivers. I have been here 30 days and have had the honor of killing only one mosquito.

To WHOM IT MAY CONCERN:

I and a party of eight have just returned from a trip up the coast, where I have personally inspected the land I contracted for in El Encanto Tract Panama. I can truthfully say I am more than pleased with my land (320 acres), and if it were in California I would not take \$500 per acre for it. I have never seen land in California that will equal this land in richness, not even in Imperial Valley. I would rather clear this land of brush and trees, than to clear the stone off the average California hill land. I did not see one acre of swamp land on the tract, and very few mosquitoes. I have spent three and one-half years in the Hawaiian Islards and consider this country superior, for soil, transportation and rainfall. I intend to return here when I dispose of my California property. I am no agent, but just a plain, simple farmer.

Very truly yours.

J. E. Culver.

Gentiemen

Messers Drake & Watkins, San Francisco, Calif. As you know I landed in Panama two weeks as 9, and have been busy since learning all about this Country. I am going to invest more money here. My reason for coming down was to find out about the swamps, mosquitoes, health conditions drinking water, etc. had been told all sorts of tales on these points and was had been told all sorts of tales on these points and was afraid. Now I can say there is nothing to them. Our party camped out right in the so-called jungle and were not inconvenienced in the least. We drank water from the rivers, streams and aprings and it is good water. I have just taken some stock in the Panama Suaar Fruit and Cattle Company. I understand that it bought its land of you and I think it will make a great success and the land is surely adapted to sugar cane and coccanuts. I might add that our party hired a lawyer to look into the titles and the last line of his opinion is as follows: "Up to this date there is no encumbrance on the said property and the title in order so that Mr. Glenn W. Miller is the lawful owner thereof."

Trusting this will be of interest to you I am, Very truly yours,

Panama, R. P. June 30th, 1915.

Mr. E. J. Corkin, 211 Ochsner Bldg., Sacramento, Calif.

Sarramento, Calif.

Dear Sir.—

I landed in Fanama June Stir, and after spending a few days viewing the Canal proceeded up the coast to the El Encanto Tract, in the Province of Colon, I went up the beautiful rivers, and over some of the land, and inspected the land I bought there. It is far superior to my conception of it before seeing it. Since seeing it I have bought some more of the land and I consider it the best investment I can make.

I find the climate delightful, rather warm in the day time, about 55 degrees. Nights are cool owing to see breezes and we find one and even two blankets necessary. I never felt better in my life. Health conditions here are perfect, no contagious diseases in over six years. We also found the best of drinking water in the creeks and rivers, above tidewater.

My land lies several miles back from the coast. The soil is of the finest, good for any kind of crops a man cares to raise. The country is rich in resources, and only needs American push and energy to develop it.

Very truly yours,

M. N. Putman,

FINED FOR BUYING SOME OF UNCLE SAM'S GOODS

Strand Theater, New Movie Palace, Open to Public

Remodeled, renovated and redecorated, the American theater, at Eighteenth and Douglas streets, last night became the Strand, a motion-picture palace, and the first of its feature films to be flashed on the acreen was presented for the Omaha public. The Strand is an innovation as far as

Omaha "movie" theaters are concerned Other cities have their picture palaces where exclusive feature films are given. but last night was the first time Omaha has seen anything quite so pretentious. The interior of the theater has been decorated in a soft red, with a myriad of lights snugly hidden in wicker baskets of flowers hanging from the ceilings in the boxes and corners and under the balcony. Boxes and baskets of flowers predominate throughout the house, and vines trail from the boxes to the lobby. Ferns and paims add a gar-

den-like effect to the corners. The picture screen is located far stage" so that no blinding flicker can
